Product ID: VEPROZONE - Prozone Unit

In nature ozone is produced by the action of high energy discharges in lightening on oxygen in the atmosphere.

Prozone recreates this natural process. The ozone produced destroys harmful micro-organisms with which it comes into contact and breaks down malodour causing compounds neutralizing the unpleasant smells they produce.

Because ozone is a gas it penetrates to even the most inaccessible locations.

The process leaves no chemical residue, all 'unused' ozone reverts to oxygen within a short time.

Features:

Neutral white ABS casing (compatible with any décor)

LED confirms power on

Adjustable ozone production to match room size

LED confirms rate of ozone production

Programmable ozone production - Day/Night/24hrs

Casseted design for ease of installation and servicing

Modular design for 'no tools required' servicing

Suitable for fixed installation or portable applications

Specifications:

230mm(h) x 161mm(w) x 100mm(d)

Flame-retardant ABS

220V-240V/110V

12 watts

20mg/h (low)

10mg/h (med)
40mg/h (high)
Up to 100 cubic metres
BS EN 60335-1
BS EN 60335-2
EMC Directive 89/336/EEC

Our Price: 159.90 GBP + VAT
